

Sitip at TECHTEXTIL: the latest fabrics developments reached by the company in its industrial core-business go from footwear and helmets to the medical sector, pairing sustainability to great technical performance and technology

Techtextil - 21st-24th June - Frankfurt am Main

Hall 12.1 B45

Industry experts from all over the world meet every two years at **Techtextil**, the trade fair about the new developments in technical textiles, functional apparel fabrics and nonwovens offered by companies from all over the world. Techtextil offers exhibitors and visitors an insight into the latest developments in the industry, as well as additional technical inspiration.

Techtextil is one of the most important trade fairs for **Sitip**, Italian company with over 60 years of experience, specialized in the production of synthetic warp-knitted fabrics for the technical industrial world, and stretch and circular fabrics for the world of clothing.

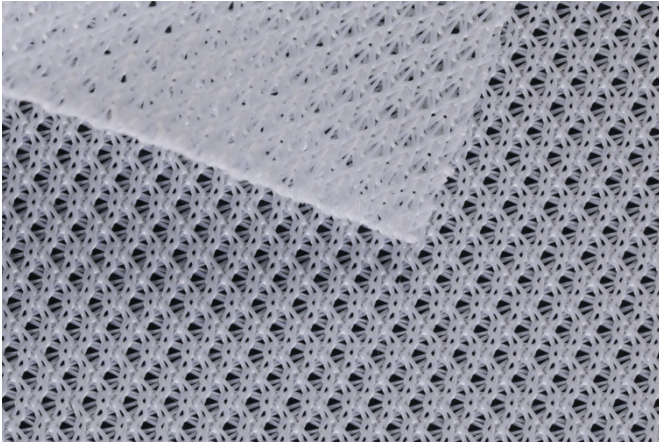

As *sustainability* in one of the major topic at Techtextil, Sitip will present its excellence among the production of fabrics as result of a path towards sustainability reached by the company over the years.

Participating in a special Forum about innovative fabrics organized by the Agency **ICE**, promoting abroad the Italian companies and their internationalization, as examples of the latest developments Sitip is bringing to the fair a list of fabrics part of the **NATIVE Sustainable Textiles** collection, a technology applied to fabrics made with recycled yarns and low-environmental-impact chemicals with reduced consumption of natural resources:

NATIVE-STRAPP RES ACR: 100% PAR, H/cm 127, g/m2 255:

A recycled brushed tricot warp knit, made with post-consumer yarns, OEKO-TEX® certified. It's a hook-receptive fabric and its main use is for the Medical&Orthopedic sector.

NATIVE-MOON PES: 100% PES RECYCLED, H/cm 155, g/m2 235:

an anti-abrasion recycled tricot warp knit, no-brushed, made with post-consumer yarns, certificated OEKO-TEX®. The main use is for the Footwear sector.

NATIVE-PARIGI NG: 82% PA RECYCLED 18% PES RECYCLED, H/cm 160, g/m2 185:

a recycled no-brushed tricot warp knit, made with pre and post-consumer yarns, OEKO-TEX® certified.

The main use is for the Footwear sector.

Other fabrics at the fair:

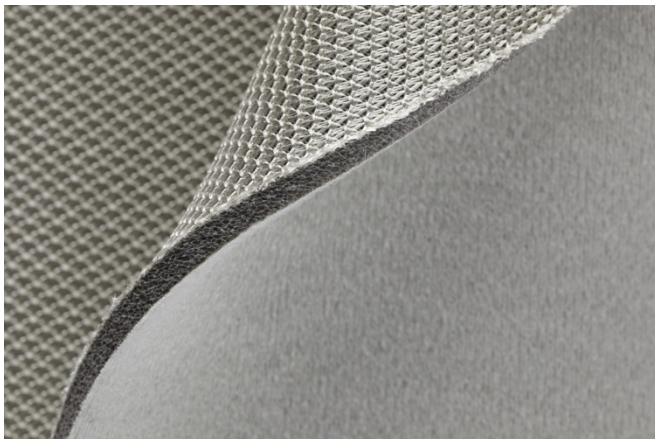

VEL5872+MTP2,3 35+VEL5872COLLA: 76% PA; 11% EA; 13% PU, H/cm 145, g/m2 540:

a glue laminated warp knit, OEKO-TEX® certified, made with:

- VELL. ELAST. 5872 H150: a tricot warp knit, bi-stretch and brushed, for hook-receptive
- MTP D.035 MM.02,0 H.152 ANTRAC (foam)
- VELL. ELAST. 5872 H150: a tricot warp knit, bi-stretch and brushed for hook and loop

applications.
The main use is the Medical&Orthopedic sector.

K040+PE4 30+STRAP NR-COLLA ASX: 77% PA; 23% PU; H/cm 145, g/m2 520:

a glue laminated warp knit, OEKO-TEX®certified, made with:

- OP.K040 ITIS G230 H153 TINTO: an anti-abrasion tricot warp knit, no-brushed
- MTP D.035 MM.02,0 H.152 ANTRAC (foam)
- VELL.STRAPP G200/10 H150 NON R: a brushed tricot warp knit for hook and loop applications. The main use is for the Medical&Orthopedic sector.

a flame laminated warp knit, OEKO-TEX®certified, made with:

- SHALIMAR L SANITIZED IDROFILO FORO PICCOLO REDBULL: a brushed tricot warp knit, printable, antibacterial (Sanitized®) and hydrophilic (with the Sitip Technology *2DRY Enduring Freshness* - that makes the fabric dry quick, wicking moisture away from the body and leaving it with a sensation of pleasant freshness)
- FILTRO S45 MM.03.5 H.153 ANTR, a breathable foam which main use is for the Helmets sector.

About Sitip

Sitip S.p.A. is an Italian company with over 60 years of experience, specializing in the production of synthetic warp-knitted fabrics, intended for the technical industrial world, and stretch and circular fabrics, intended for the world of clothing.

Three the main types of production: fabrics for mechanical fastening systems for technical-industrial applications; technical fabrics and supports for lamination and coating intended for industry; eco-friendly fabrics branded NATIVE Sustainable Textiles; stretch fabrics for sport and athleisure.

The application markets are the most different, including orthopedics, personal care, abrasives, furniture, footwear, clothing, automotive.

Official Supplier of Giro d'Italia since 2014 with the supply of fabrics for the "Maglia Rosa" Sitip, consolidates its bond with sport and in particular with the cycling sector, demonstrating the great expertise in the production of highly technical sportswear fabrics, used by the biggest international active brands.

Continuous innovation goes hand in hand with a far-sighted corporate strategy, since Sitip makes use of the most recent technologies and the most advanced machinery to allow continuous production and quality updating. R&D activities are carried out in close collaboration with its customers and partners.

Sustainable development is a fundamental objective for ever greater environmental quality and social equity. To achieve this, Sitip operates in line with international certifications such as OEKO-TEX®, BLUESIGN®, GRS and adheres to the ZDHC gateway, adding to these an ISO 14001 environmental management system.
