

A+A 2023: the world's leading event for safety and health at work

A+A is the world's leading trade fair for safety, security and health at work and takes place every two years.

The 38th edition of A+A will be held at Messe Düsseldorf from 24-27 October 2023.

A+A 2021 registered 1.204 exhibitors and 25,000 trade visitors compared to 2,121 exhibitors in 2019.

The 2023 edition will have more than 2.200 exhibitors and will present some novelties:

- the halls clearly segmented according to theme, thereby placing similar products and services in close proximity with each other;
- Hall 15 will present Corporate Wear and Hall 16 and 17 the complete spectrum of components and accessories for manufacturing up-to-date protective wear.

In parallel to the fair, Messe Düsseldorf and the German Federal Association of Occupational Safety and Health (BASI) organize the International **[Congress for Occupational Health and Occupational Medicine](#)**.

The specific focus of this year's congress is on Work 4.0, the potential of digitalization and Artificial Intelligence (AI) for Occupational Safety and Health (OSH), the continuation of work during a pandemic, and the implementation of Vision Zero. Other topics include mobile work, OSH in international supply chains, sustainability in OSH, and the future of work in Europe and worldwide.

What makes A+A special?

First of all, the two events cover all aspects of a workplace injury prevention culture, ranging from occupational safety and health procedures to workplace design and operational risk management.

From exoskeletons (wearable robots) that support workers executing physically demanding tasks, to high-utility and fashion workwear, to personal protective equipment, the topics covered by this year's A+A are as current as ever.

Secondly, as a result of A+A's successful visitor targeting over 45 per cent of all visitors are top-management representatives, followed by 20 per cent middle-management. A+A is an excellent place for meeting business partners active on the European market.

At A+A TexClubTec, the technical textile department of Sistema Moda Italia, organizes a joint booth of Italian companies representing the entire textile chain of PPE and textiles for protection, from fibres to yarns and fabrics, to end products.

- Area 52 Srl (stand 16H26-2)
- Argar Technology Srl (stand 16H36-3)
- BTech (stand 16G28-4)
- Centrocot S.p.A. (stand 16G28-3)
- Directa Plus (stand 16H28-2)
- Fait Plast SpA (stand 16G36-1)
- FF Srl (stand 16G28-2)
- Fil Man Made Group Srl (stand 16G36-3)
- Grassi (stand 16h28-1)
- Imbotex Srl (stand 16G28-1)
- Innovarte (stand 16H36-2)
